Earnings per annum as well as total earnings at the end of 3 years will be automatically entered by the system.

NOTE: The minimum and maximum values refer to the lowest and highest possible values expected, irrespective of the year. For example if you expect SALES to be a minimum of say \$1,500,000 in the 1st year and a maximum of \$3,500,000 in the 3rd year, those are the values you need to enter above. Same with CGS and Sales & Admin. Expenses. These are the particular value ranges built into your dashboard. It is not advisable to enter unrealistic amounts, as it can affect the functionality of the dashboard.

Unless it is due to a mistake from our part, after the dashboard has been sent to the client, the \$20.00 fee is not refundable

Unless otherwise indicated, we will send you the interactive dashboard to the same email address you used to send us this filled out form.

Notice to Texas Residents ONLY: You don't have to pay the \$20.00 fee. After following the registration procedure and sending us back the filled out form, you will receive the interactive dashboard at no cost.
